Reason for Assessment/Area Assessed

Site specific risk assessment for the running of a Wild Water Race on the river Lune on the 16th March 2014, so paddlers parents & everyone else involved are aware of the risks when on or near moving water.

What are the hazards?	Who might be harmed and how?	What are you already doing?	What further action is necessary?	Action required by whom?	Date Action required by?
River with moving water	Paddlers, coaches on the water & spectators Drowning	<p>Safety procedures and risks to paddlers & parents will be explained carefully before session.</p> <p>All paddlers should wear buoyancy aids. The coach/session leader will check that they are properly fitted correctly.</p> <p>The coach/session leader must walk or paddle the section of water being used before the session to visually check for any new hazards.</p> <p>When paddlers are not on the water it is the responsibility of parents or guardians to supervise paddlers.</p> <p>Coaches must be satisfied that all paddlers have the knowledge to perform a capsize drill.</p> <p>All equipment must be thoroughly checked before use. If necessary a session will be cancelled rather than use faulty equipment.</p> <p>Coaches/session leaders all well versed in rescue techniques.</p> <p>Maintain line of sight along the full length of the course during the race.</p>	Safety placed at specific points on the river with throw lines when possible	Coaches, session leaders, spectators & assistants	On Going

DUDDON CANOE CLUB Risk Assessment Form 2013 (HSE based)

What are the hazards?	Who might be harmed and how?	What are you already doing?	What further action is necessary?	Action required by whom?	Date Action required by?
